

G.R.O.W.

Giving Referrals Out Weekly

A Professional Networking Group

A Note From the Organizer

G.R.O.W. is doing exactly what the acronym says. We've expanded our services to a location near you. Stop by any or all locations and find out why we're the fastest growing networking group along the I35 corridor.

Over the last two years, we have seen many wonderful events happen. After the first year, we were privy to witnessing members expand their business and leave the nest. The second year we are seeing an abundance of new faces. Small business has always been

the backbone of any community.

G.R.O.W. is focused on the members rather than the headcount. Making ourselves know in the community rather than international level. We don't follow the Robert's Rules of meetings, but simply use common sense and courtesy. We have and always will be committed to helping other small business owners succeed.

Carolyn Ortiz, G.R.O.W. Coordinator

Wit & Wisdom Ink

I can write what you think, quick as a wink!

Handwritten Poetry and Prose in Ink

Tailored made just for the occasion.

by

Miriam Robb

Greetings, I'm Miriam Robb, and I am the owner of Wit & Wisdom Ink, a creative writing company, Where I write with pen and ink in verse and prose, Composing the following:

- Birthday cards
- Invitations
- Thank you notes
- Wedding announcements
- Wedding vows
- Correspondence

or anything else that a client might need. I created the company after spending five hours talking with Ron Martin (Ron Martin and Associates). After that, I was inspired to begin a new venture.

Listening to the client and discovering their needs, desires, and spending a little time studying the content for each project, I can produce whatever has been requested. All that I need to compose a customized birthday card, is information about the person. For example, 10 statements about the subject's life, likes, favorite things, funny situations, things they say, or a short biography.

An invitation needs only the pertinent information and a little bit about the people offering the invitation. Thank you notes serve many different situations; encouragement, praise, help, managing a problem, etc. I make a poem out of the information, or put the client's thoughts into flowing phrases fit to impress and satisfy each occasion.

I always enjoyed rhyme as a child as a student, and into adulthood. I thoroughly enjoyed Dr. Seuss stories, especially reading them with my kids when they were small and learning to read. My family also had great times reading jokes aloud or telling funny stories. I found early on I could come up with a poem with ease. Family members would often request a birthday poem for relatives. My husband would want something humorous written for work. I started journaling and poems would just come to me. People would read my writings and say, "You should write for Hallmark." Or, "You should get paid for this."

As a Mary Kay business consultant, I wrote my own jingles. Quite often people commented

on them with great approval or laughter. That prompted me to call a friend one day and offered to write a jingle for their business without asking for any payment for the work. They liked it! It was of value to the business, so I decided at that time that I wanted to start getting paid for my poetry and all my writing.

I created an ad in verse, put it on gray parchment, made 50 copies and started handing it out to anyone who would take a copy and listen to my pitch. I now network and contact people I think will be interested in my services.

If an appointment you desire? And my services you hire?

Call 512-210-9071 and inquire. Miriam Robb's sure to inspire.

diffusers

Choose Your Approach

Using essential oils aromatically in a diffuser.

by
Ashley Kulhmann

You might be wondering, what is an essential oil diffuser and what are the benefits? A diffuser is a device that disperses essential oils into the air. A few common places you would use a diffuser are:

- Bedroom
- Living Room
- Kitchen

- Office Area
- Common Areas
- Spa Rooms
- Hotel Rooms
- and many more places.

Diffusion is the most effective way to enjoy essential oils aromatically and is most efficiently accomplished by an essential oil diffuser. Essential oil diffusers take an oil and transform it into a mist that allows the user to experience the aroma of the essential oil for an extended period of time. There are a variety of diffusers out there but its best to stick with a diffuser that uses water or cool air to diffuse the oil.

The benefits you receive when using essential oils aromatically in a diffuser are that it can be helpful for improving and managing mood, provide invigorating and uplifting effects, and or produce relaxing, calming and soothing feelings. Also using a diffuser will help purify the air and support your breathing.

While using a diffuser provides an easy way to enjoy the aromatic benefits of essential oils, there are so many other creative ways to use essential oils aromatically. We can talk about those ways in the future.

Do you want to experience essential oils aromatically?

Give it a try, you will thank me later!

New Location to Better Serve You!

The projected date is October 1, 2017.

We are located at 1904 Old RR 12 #110, San Marcos 78666.

by

Pamela Steger

As the owner of Steger's Chiffonade, which is a personal chef/catering and baking establishment. We create weekly menus for customers to order meals that will be delivered to their homes, offices or wherever they are needed. The meals can be custom ordered to dietary needs and can be delivered every day or a few at a time. In addition the weekly menu, there is a weekly menu for casseroles. These casseroles can feed a family or can comfort someone who is in need.

Steger's Chiffonade also provides for most catering needs, to include weddings, anniversaries, birthdays, special occasions, even business luncheons. Lastly, we provide baked goods for several coffee shops and businesses around San Marcos.

I started my business approximately 11 years ago with just a few clients and baking for one coffee shop in San Marcos. Through the years my business

grew and I needed more space and a storefront to help grow my business and clientele.

With that said, after several years in a very small commercial kitchen, my business partner and I moved! Our new space is over 800 square feet and we spent weeks outfitting it to create a new commercial kitchen. With this new space, we plan to create a free-flowing work area which will accommodate more employees and so much more needed storage. The new space will also be a storefront! We will create a space that allows customers to come into the shop and pick up meals, casseroles or baked goods to go! We want people to rely on us for their daily food needs.

The projected open date is October 1st, come see us!!
